Disclaimer
The information provided here will show you how to build a chicken coop. However, we at howtoplans.org do not claim that the recommended techniques are the only way to accomplish this task. It will be the responsibility of each customer to ensure the application of the correct construction methods and the use of the proper materials.
In addition to the selection of the materials, the customer will be responsible for such construction issues as caulking, flashing, gluing, insulating and nailing, for ensuring adequate workmanship in the areas of installation, roofing and weatherproofing, and for any other items that are beyond the control of the designer. The materials mentioned in the plans do not represent an endorsement or recommendation of any particular product.

The Responsibility of Users
Despite our commitment to presenting accurate information, howtoplans.org is not liable for any errors or omissions appearing in the plans. Furthermore, howtoplans.org will not be liable for any consequential, special, incidental or indirect damages resulting from the use of this information. Our freedom from liability also extends to such issues as the loss of anticipated profits or business opportunities, and economic losses stemming from the use of howtoplans.org, regardless of whether there has been notification of such damage.

Liability
Those who utilize the methods described on howtoplans.org will be responsible for their own actions. We are not liable for any injuries or property damage that may arise from the use of the information appearing on this website. If you decide to use these plans, you should employ only quality materials and should always adhere to good safety practices. In the event that you are unable to complete the project on your own, you should contact a certified contractor to ensure that construction is completed with the highest standards.

Permissions
It is important to understand that planning and permission issues are dependent upon local requirements. Users of these plans are responsible for complying with the appropriate statutes and regulations, and for the proper implementation of the plans or other construction information provided by howtoplans.org. The city or county office in your area should be able to provide you with the relevant information.

The one-time use of the plans is limited to anyone who purchases them. The duplication, publication, sale or distribution of any portion of these plans without prior written consent from the original designer will be subject to the appropriate penalties for copyright infringement.
# 10'x12' Garden Shed Material List

## Site Preparation
- Concrete
- Bricks

## Bottom Frame
- Pressure-Treated Lumber
- Plywood

## Shed's Door
- Pressure-Treated Lumber
- Wood siding boards
- Plywood

## Walls Exterior Siding
- Pressure-Treated Lumber
- Wood siding boards

## Wall Frames
- Pressure-Treated Lumber

## Top Frame
- Pressure-Treated Lumber

## Shed's Roof
- Pressure-Treated Lumber
- Pressure-Treated Board
- Plywood
- Building paper
- Asphalt shingles
- Metal drip edge

## Fasteners & Hardware
- Door hinges
- Door pulls
- Surface bolt
- Window lock
- Wood square louver gable vent
- Galvanized nails
- Wood screws

## Shed's Window
- Pressure-Treated Lumber
- Window beading
- Glass

## Drainage System
- Pressure-Treated Lumber
- Half round gutter
- End pieces with outlet
- 45° elbow
- Drainage pipe
- Joint connector
- End cap
- Round hunger
- Wall fastener
Shed's Window Shutter
- Pressure-Treated Lumber

Shed's Pergola
- Pressure-Treated Lumber

Door Ramp
- Pressure-Treated Lumber
- Plywood

Wall Sheathing
- Plywood
Foundation Preparation

1.1 Clear the area where you want to build the shed and layout for the foundation. Use the below illustration as a guide.

1.2 For the foundation, dig the trenches at least 1’ wide and 1’ deep.

1.3 Fill the trenches to ground level with concrete and let cure, or harden. Since curing times vary between brands, read the packaging for recommended curing times.

1.4 Once the concrete has cured, use standard-sized bricks and lay them across the foundation.
Framing the Floor

2.1 Assemble the frame using 1 1/2” x 7 1/4” pressure-treated lumber. You will need eight boards cut to 9'-9” for the floor joist.

2.2 Secure the beams with 8x5” flat head Phillips wood screws.

2.3 Make sure all the corners are 90° using a square.
Assemble Front Wall Frame

3.1 Construct the front wall frame using 1 1/2” x 3 1/2” and 3 1/2” x 3 1/2” and the drawing below as a reference. It requires three 1 1/2” x 3 1/2” boards cut to 10 1/4” for the cripple studs; three one 1 1/2” x 3 1/2” board cut to 5’-4” for the door header; eight 1 1/2” x 3 1/2” boards cut to 6’-11 3/4” to use as wall studs; two 1 1/2” x 3 1/2” boards cut to 12’ that will be the top and bottom plates; and two 3 1/2” x 3 1/2” boards cut to 6’-11 3/4” to use as studs.

3.2 Use 2x4” flat head Phillips wood screws to connect the beams.

3.3 Check the corners to make sure they are 90°.
# Assemble Back Wall Frame

4.1 Construct the back wall frame using 1 1/2" x 3 1/2" and 3 1/2" x 3 1/2" treated lumber, using the drawing below as a reference. You will need eight 1 1/2" x 3 1/2" boards cut to 6'-11 3/4" for the wall studs, two 1 1/2" x 3 1/2" boards cut to 12' for the top and bottom plates; and two 3 1/2" x 3 1/2" boards cut to 6'-11 3/4" that will be corner wall studs.

4.2 Connect the beams with 2x4" wood screws.

4.3 Using a speed square or carpenter’s square, check the corners to verify that they are 90°.
Assemble Left and Right Wall Frames

5.1 Using 1 1/2” x 3 1/2” treated lumber, construct the two side wall frames, using the drawing as a reference. You will need one board cut to 7 1/4” that for the cripple stud, one board cut to 2'-9 1/2" that will be the stud, two boards cut to 3'-4" for the window header and rough sill, eight boards cut to 6'-11 3/4" for the studs and two boards cut to 9'-5" for the top and bottom plates.

5.2 Join the beams with 2x4" Phillips flat head wood screws.

5.3 Verify that all the corners are 90°.
Assemble the Roof Frame

6.1 Cut 16 rafters 7'-1/2" long using 1 1/2 " x 5 1/2 " pressure-treated lumber by following the dimensions.

6.2 Using 1 1/2 " x 3 1/2 " treated lumber, cut six collar ties 5'-11 3/4" long according to the dimensions.

6.3 Using 3/4 " x 7 1/4 " treated board, cut a 12' long ridge board as shown in the illustration below.

6.4 Assemble the beams with 2x3" flat head Phillips wood screws.
Assemble the Rafter Bays

7.1 Cut 14 rafter bays 1'-6 3/4" long using 1 1/2 " x 5 1/2 " treated lumber.
7.2 Cut the top edge of each stud and connect them with rafters.
7.3 Connect all the beams with 2x4" flat head Phillips wood screws.
Assemble and Install Shed Doors

8.1 Build the door frames for the shed using 1 1/2 “ x 3 1/2 “ pressure-treated lumber and secure with 5” wood screws. You will need two boards cut to 5’-11 3/4” that will be the vertical girts and two boards cut to 2’-3/4” that will be the horizontal girts.

8.2 Cut the 9/16” plywood sheet into two pieces that measure 2’-7 3/4” x 5’-11 3/4” for the doors according to the drawing.

8.3 Use 2 1/2 “ x 3/4 “ pressure-treated lumber for the door trim and fasten with 2” flat head wood screws. You will need two pieces cut to 2’-2 3/4” and two boards cut to 5’-11 3/4”.

8.4 Using 1/4 “ x 3/4 “ treated wood, cut and install a starter course 2’-2 3/4” long.

8.5 Use 1/2 “ x 6” wood siding boards to make the door. referring to the image below.

8.6 Join siding shields with 2” galvanized nails.

8.7 Install six 3” door hinges using 6x1” wood screws. Finish the door installation by attaching 4” surface bolts and 6” door pulls.
Roof Sheathing Installation

9.1 You will need 185 square feet of asphalt roofing material.

9.2 Attach the metal drip edge to the fascias

9.3 Cover the plywood with building or roofing paper.

9.4 Install asphalt shingle roofing using a hammer and roofing nails or an industrial stapler.
Assemble and Install Window Shutters

This plan needs four windows shutters.

10.1 Assemble shutter frames using 3/4 ” x 1 1/2 ” treated lumber and secure with 3” Phillips wood screws. You will need one board cut to 1'-4 3/4”; two boards cut to 3'-3/4” for the vertical girts; and two boards cut to 1'-7 3/4” for the horizontal girts.

10.2 Mill a recess along the vertical girts for the shutter’s slats.

10.3 Use 1/4 ” x 1 1/2 ” pressure-treated lumber for the slats and cut 22 boards to 1'-5 3/4”.

10.4 Install two 3” door hinges using 6x1” wood screws.
**Assemble and Install Pergolas**

This plan uses two pergolas as decorative shutters around the double doors.

11.1 Make the front frame using 1 1/2 “ x 1 1/2 “ treated lumber and fasten it together with 3” wood screws. You will need two boards cut to 6'-7” for the vertical girts and two boards cut to 1'-5 1/2” for the horizontal girts.

11.2 Make the back frame using 3/4” x 2 1/2 “ treated lumber and secure with 5” wood screws. You will need two boards cut to 6'-7” for the vertical girts and two boards cut to 1'-3 1/2” for the horizontal girts.

11.3 Use 3/4 “ x 3/4 “ pressure-treated lumber for the lattice. You will need 36 boards cut to 2'-3/4”.
Assemble and Install Roof Drainage System

12.1 You will need 5" half round gutter 10' long, two end pieces with the outlet, six 45° elbows, two 3" pipes 6' long, two joint connectors and two end caps to make the roof drainage system.

12.2 Fasten the round gutter to the fascia with the round hangers.

12.3 Fasten the vertical pipe sections with the four wall fasteners at even intervals.
Assemble and Install Door Ramp

13.1 Make five door ramp frames from pressure-treated lumber and secure with 3 and 5” flat head wood screws. For each frame you will need one 1 1/2” x 1 1/2” board cut to 1'-8”; one 1 1/2” x 2 1/2” board cut to 3'-3/4”; and one 1 1/2” x 3 1/2” board cut to 6 1/4”.

13.2 Connect and secure the frames using one 1 1/2” x 2 1/2” board 5'-9” long and 3” wood screws.

13.3 Cut the 9/16” plywood sheet to 3'-3/4” x 5'-9” for the top plate and two sheets cut to 9 1/4” x 2'-9 1/2” for the sides.

13.4 Assemble siding shields with 2” galvanized nails.
Shed Decoration

Now that your coop is all done, you are ready to decorate it any way you want using your favorite paint, stain, or preservative.
